RESEARCH EXPERIENCE

PROJECT ASTHMA | RESEARCH ASSISTANT

Kno.e.sis | Jan 2015 – Present

- This sensor/mobile application is geared toward asthma management for children. k-Health kit consists of various sensors and Tablet Android Application for patient risk assessment.
- I have contributed to the connectivity between Nitric Oxide sensor and Application, introduced data summarizing feature, and developed a incentive reward system. I use Java 1.7 and Android SDK 17.
- **Publication** : P. Anantharam, T. Banerjee, A. Sheth, K. Thirunarayan, S. Marupudi & V. Sridharan "Knowledge-driven Personalized Contextual mHealth Service for Asthma Management in Children", IEEE 4th International Conference on Mobile Services, June 27 - July 2, 2015, New York, USA

City360 | RESEARCH ASSISTANT

Kno.e.sis | Feb 2016 – Present

- I developed a visualization tool for multimodal city events using location, and type of events from Eventful, and Open data SF311 for decision support.
- Visualized continuous traffic flow data by collecting it asynchronously from Inrix.
- **Publication** : V. Sridharan, T. Banerjee, P. Anantharam, A. Sheth, & K. Thirunarayan "City360: Visualizing Multimodal City Events for Decision Support", under review.

PROJECT DEMENTIA | RESEARCH ASSISTANT

Kno.e.sis | Jan 2015 – Present

- This mobile/sensor application aspire to study the behavioral markers for dementia patients.
- Interfaced the sensors (UP24 and Hexoskin) with the application, introduced data summarizing feature, made UI changes, and bug fixes. I use Java 1.7 and Android SDK 17.

INTERNSHIP EXPERIENCE

SERVION GLOBAL | SOFTWARE DEVELOPER INTERN

JUNE 2013 – FEB 2014 | TN, INDIA

- Developed a Flash Policy Java Service to maintain Web Socket compatibility in Internet Explorer 8 and 9 with Linux server.
- Successfully designed a soft-phone with a Chrome Extension with HTML, jQuery and CSS. Extension developed to enable insertion of the soft phone (in-line frame) into a web page.
